

Certified Pick up (CPU) for the Port Antwerp-Bruges

As from January 15, 2024, all import releases will solely be handled through the CPu platform for all deepsea terminals. This is a mandatory local regulation and an external system.

Pick up will only be possible if the below lights on the CPu platform are coloured “green”.

Following lights are to be monitored by yourselves and need to be “green”:

1. Commercial Release Light
2. Terminal Release Light
3. Customs Light
4. Pick Up Light

Where can you find your APCS code?

<https://register.portofantwerpbruges.com/account/#/>).

- log in on C-point
- Click My Company/Mijn bedrijf
- APCS code is mentioned in the bottom right corner (this is a short code, maximum 6 digits).

How can you register for an account?

If you are not yet registered, kindly register your company in C-POINT with the Port of Antwerp Bruges and bear in mind that for Maersk the APCS code is the unique identifier (

<https://register.portofantwerpbruges.com/account/#/>).

- log in on C-point
- Click My Company/Mijn bedrijf
- APCS code is mentioned in the bottom right corner

You can already transfer the Commercial Release to your vendor (trucking company, barge/rail operator). Only when all these lights are effectively green, it means your container is ready for pick-up.

If not done already we encourage you to familiarize yourself with the platform on www.certifiedpickup.eu.

If you are not yet registered, kindly register your company with the Port of Antwerp Bruges and bear in mind that for Maersk the APCS code is the unique identifier

<https://register.portofantwerpbruges.com/account/#/>).

Please do not refrain from signing up at www.nxtport.com.

These links will guide you through the process step by step.

If you have any further questions, please do not hesitate to contact your usual Maersk representative.

We trust this information is helpful.
